

UNIVERSITY OF DELAWARE – STRUCTURAL ENGINEERING FACULTY POSITION

The Department of Civil and Environmental Engineering invites applications for a tenure-track faculty position (Req#4791) in Structural Engineering starting Fall 2010. All ranks will be considered. An earned doctoral degree in civil engineering or a related field is required. Successful candidates must have exceptional qualifications and be capable of developing outstanding teaching and research programs.

The department is interested in strengthening existing programs while expanding into new multidisciplinary areas. Structural areas of particular interest include innovative bridge engineering, smart and adaptable structures, design for nontraditional loads, nondestructive evaluation, and composite materials. The promise of the candidate's research is of higher priority than the specific area of research.

The Civil and Environmental Engineering Department (www.ce.udel.edu) has 27 faculty members, approximately 450 undergraduate students, and 100 graduate students. The department has active research programs in structural, geotechnical, environmental, coastal, infrastructure systems, and transportation engineering. Department faculty also participate in multi-disciplinary research and education as part of the Center for Innovative Bridge Engineering, Center for Composite Materials, and Disaster Research Center. The department has state-of-the-art facilities and instruments for laboratory and field experiments and computing.

One of the oldest institutions of higher education in this country, the University of Delaware today combines tradition and innovation, offering students a rich heritage along with the latest in instructional and research technology. The University of Delaware is a Land Grant, Sea-Grant, Urban-Grant and Space-Grant institution with its main campus in Newark, DE, located halfway between Washington, DC and New York City. Please visit our website at www.udel.edu.

Applicants should submit (1) a cover letter summarizing their experience, (2) teaching and research plans, (3) curriculum vitae and, (4) names and contact information of three references. Applicants should go to the website www.engr.udel.edu/faculty-search and select the link for "Civil and Environmental Engineering" positions to upload their information (PDF submissions are strongly encouraged). Or, send by mail to Professor Harry Shenton, Req#4791 Search Committee Chair; Department of Civil and Environmental Engineering, University of Delaware, Newark, DE 19716. Review of applications will begin January 4, 2010. The curriculum vitae and application materials will be shared with departmental faculty. The University of Delaware is an Equal Opportunity Employer and encourages applications from minority group members and women.
